During a study of plants, we made some predictions about how we think plants grow. We graphed our predictions on chart paper. Later on, we discovered more about these plants through books we read or through observation whenever possible. I didn't point out the facts to the children, but allowed them to discover it on their own. This Pin was discovered by Ashley Meggan. Discover (and save!) your own Pins on Pinterest. Gardening with kids is one of my favorite activities to do year round! In the cold winter months you can even start seeds indoors. Children can then observe changes as the seeds begin to sprout and grow over time and record their observations on the free printable recording sheet!
