

Download Reefer Refrigerated Owners Manual

We take a look at the 7 key challenges in refrigerated transport for carriers and how Blue Tree Systems helps to address them. ISO 6346 is an international standard covering the coding, identification and marking of intermodal (shipping) containers used within containerized intermodal freight transport. The standard establishes a visual identification system for every container that includes a unique serial number (with check digit), the owner, a country code, a size, type and equipment category as well as any ...System-Wide Comments.
